Congratulations class of 2020 on your amazing journey and accomplishment. Many of you overcame various obstacles to obtain this goal demonstrating your determination and resilience. Understand and believe in your inner strength and abilities. We are so proud of each and every one of you. 2020 is the year of vision. We are being shown and taught to focus on what truly matters in life. Happiness, health, family, friends, fulfilment, appreciation and gratitude. I cannot describe the beautiful feeling watching you all grow personally, professionally, emotionally and academically from that first hot summer day beginning your college career with SSS to graduation. I’m sure you all know the journey is much more than classes, exams and grades. I encourage you to set goals that always lead you to your passion and love, continue to work on your craft and help others on your journey. Thank you for allowing us into your lives. Thank you for creating some great memories. I am so grateful for the experience. Blessings to you all.
